

SAKSHI CHANDRA

Ayodhya, India

+91-6307359883 | sakshi2507chandra@gmail.com | [LinkedIn](#) | [GitHub](#) | [Leetcode](#) | [Portfolio](#)

SUMMARY

Computer Science graduate with hands-on experience building **full-stack products**, applying **data and AI** to solve problems, and working across **technical and business workflows**. Experienced in taking projects from **idea to deployment**, analyzing data to generate insights, and collaborating with teams to turn **requirements into working solutions**.

EDUCATION

Vellore Institute of Technology, CGPA: 8.48

2022 – 2026

B.Tech. in Computer Science and Engineering (E-Commerce Technology)

Bhopal, Madhya Pradesh

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript, HTML, CSS

Development: React.js, Node.js, Express.js, MySQL, Firebase, Bootstrap, REST APIs

Data & AI: Power BI, DAX, Power Query, Excel, Machine Learning, Scikit-learn, Pandas, Data Visualization

Tools & Deployment: GitHub, Docker, Vercel, Render, Railway, Streamlit

EXPERIENCE

[Eutien Technologies – Web Development Intern](#)

Feb 2025 – May 2025

- Contributed to the development of a full-scale e-commerce platform, building **8+ reusable modules** supporting product discovery, user interactions, and business workflows.
- Collaborated with the **Apps Solutions & Services (AS&S) team** across web application projects, coordinating with team members to understand requirements and support development activities.
- Developed responsive interfaces using **React.js, HTML, CSS, and JavaScript**, identifying usability improvements to deliver a consistent experience across devices.
- Built **15+ RESTful backend endpoints** using **Node.js and MySQL**, handling product, user, and order data across application workflows.

PROJECTS

[Gatherlytics – Event Planning Platform](#) | Node.js, React, Docker, Vercel

January 2026

- Architected and deployed a full-stack, AI-driven event planning platform that uses **user inputs and machine learning** to provide personalized event recommendations.
- Designed **12+ reusable React components** and dynamic workflows to create a consistent and responsive user experience across devices.
- Integrated a **custom-trained ML classification model** achieving **83% accuracy** to generate personalized event category suggestions based on user inputs.
- Developed **RESTful APIs** connecting user workflows with the recommendation pipeline, enabling real-time personalized suggestions with **sub-300ms latency**.

[Event-Planner Classification Model](#) | Colab, Python, Scikit-learn, Pandas, Streamlit

October 2025

- Designed, trained, and benchmarked classification models to analyze **structured user inputs** and evaluate their effectiveness in predicting relevant event categories.
- Achieved peak accuracy of **83% with Random Forest**, outperforming Decision Tree by **11 percentage points**.
- Engineered input features using **OneHotEncoding** for categorical variables, improving model generalization and prediction quality.

[Revenue Analytics Dashboard](#) | Power BI, DAX, Power Query, Excel

2026

- Developed an interactive **Revenue Analytics Dashboard** analyzing **13.01K+ revenue**, **198 orders**, and **49 customers** to identify trends and generate actionable business insights.
- Built **4 analytical modules**: Overview, Cohort Retention, Revenue Trends, and Customer Segmentation to analyze customer and sales behavior.
- Implemented **cohort retention analysis**, identifying an average customer retention rate of nearly **33%**.
- Used **Power Query** for data cleaning and transformation and developed interactive visualizations to support trend, customer, and regional analysis.

EXTRACURRICULAR

[Mozilla Firefox Club — Advitya'24 College Fest](#)

February 2024

- Organized and conducted a **quiz for participants**, coordinating with attendees and supporting the smooth execution of the event.

[Volleyball— Advitya'23 Sports Fest](#)

February 2023

- Participated in volleyball competition, demonstrating **teamwork, coordination, communication, and leadership** in a competitive environment.
- Cognitive Mind and Fitness Club**: Volunteered during the **Advitya'23 College Fest**, assisting with event coordination, participant engagement, and on-ground activities.
